SUMMARY

Motivated final-year Computer Science undergraduate with a strong foundation in software development and programming concepts. Skilled in building responsive, user-focused applications and applying logical problem-solving to real-world challenges. Detail-oriented, proactive, and adaptable, with the ability to quickly learn new technologies and work effectively in collaborative environments.

WORK EXPERIENCE

Full Stack Developer, 10Pearls, Karachi, Pakistan-Hybrid

Sep '25 — Nov '25

- Collaborated with fellow interns in a team-based environment on assigned project modules under the guidance of the HR.
- Gained practical experience in full-stack development workflows, including API integration and responsive UI implementation.
- Built scalable, maintainable web application components using **MongoDB, Express.js, React, and Node.js (MERN stack)**.
- Gained hands-on experience with **Git and GitHub**, including version control, branching, merging, pull requests, and resolving conflicts while coordinating with other interns.
- Participated in code reviews and group discussions to ensure code quality, maintainability, and adherence to best practices.

SKILLS

Programming Languages JavaScript, Angular, React, React Native, C, C#, Python, SQL, Java

Framework .NET, React.js, Node.js, Express.js, Angular

Databases: MongoDB, MySQL

Tools / Frameworks: WordPress, Power BI

EDUCATION

Bachelor of Science in Computer Science, Shaheed Zulfikar Ali Bhutto Institute of Science and Technology (SZABIST) (GPA: 3.43)

Sep '22 — Jun '26
Karachi, Pakistan

- Expected Graduation: 2026

PROJECTS

CareerMap- Student Guidance Web App |FYP

Sep '25 — Present

- Tech Stack:** React, Node.js, Express.js, Socket.IO, JWT Authentication, MongoDB
- CareerMap enables students to discover mentors and tutors, apply for tutoring, track milestones, engage in real-time chat, and receive guidance for academic and career planning.
- Developed modules for **mentorship management, student marketplace, and academic planning**, ensuring a seamless, centralized experience for students.
- Integrated real-time mentorship chat, academic planning, and student marketplace for a seamless, interactive student experience."

Connect- Full-Stack Chat Application

Apr '25 — Jun '25

- Tech Stack:** React, Node.js, Express.js, Socket.IO, JWT Authentication, MongoDB
- Developed a **full-stack real-time chat application** with **JWT-based authentication** for secure signup, login, and profile management.
- Built a **responsive React frontend** with interactive UI and integrated **Socket.IO** for instant one-to-one and group messaging.
- Created a **Node.js/Express backend** with **MongoDB** to handle API requests, user sessions, and store user data securely.

Weather AI Prediction – Weather Forecasting System

Mar '25 — Jan '25

- Tech Stack:** Python, Pandas, NumPy, Scikit-learn, Matplotlib, Kaggle Dataset
- Collected and **preprocessed weather data** from Kaggle, including **cleaning, scraping, and filtering** for model readiness.
- Built and evaluated **machine learning models** including **KNN, Decision Tree, and MLP** to predict weather conditions accurately.
- Visualized insights and model performance using **Matplotlib**, enabling data-driven weather forecasting.

CERTIFICATION

Assisted in early-stage business workflows, research, and lead generation., Sky Lines

Earned the Coursera Advanced Data Analytics, Professional Certificate by completing all 8 courses in the specialization.

Participation in UI/UX Module, ZAB E FEST

Get Started with GitHub and GitHub Copilot Certification, MLSA-Microsoft-Learn-Student-Ambassador-Program-Szabist

5 Day Fundamentals of Programming Bootcamp, Google Developer Student Clubs (GDSC)

HTML CSS JavaScript Course, Johns Hopkins University

Design and creativity Team Member, Zab-e-Fest
