EXPERIENCE

10Pearls Karachi, Pakistan
Full Stack Developer Intern Sep 2025 – Nov 2025

- **Full-Stack Development:** Engineered full-stack features for a MERN-based notes application across front-end and back-end systems during a **3-month** internship.
- **Frontend Development:** Created **8+** reusable React components and improved user experience through responsive interfaces.
- **API Integration:** Integrated **10+** REST API endpoints into the MERN-based notes application.
- **Collaboration:** Contributed to debugging, feature enhancements, and code reviews using Git/GitHub.

PROJECTS

CareerMap – MERN Stack Final Year Project | MongoDB, Express.js, React.js, Node.js, Socket.IO, PayFast

- Designed a full-stack career guidance platform with **5 core modules**: career assessment, university exploration, peer mentoring, discussion forums, and a marketplace.
- Implemented **4 key integrations** on top of RESTful APIs and MongoDB, including secure **JWT Authentication** and role-based access control.
- Added real-time chat with **Socket.IO** and **PayFast** payment processing for online transactions.

E-Commerce Web Application | React.js, Node.js, MongoDB, Redux Toolkit, Docker, AWS EC2, Nginx

- Launched a full-stack e-commerce platform with **5 core features**: user authentication, product browsing, shopping cart, order management, and admin functionality.
- Established **RESTful APIs** and **Redux Toolkit** state management, and shipped to production on a **3-tool stack**: Docker, AWS EC2, and Nginx.

Connect – Full-Stack Chat Application | React.js, Node.js, Express.js, MongoDB Atlas, Socket.IO, Docker

- Crafted a real-time chat app on a **5-technology stack** (React.js, Node.js, Express.js, MongoDB Atlas, Socket.IO).
- Built **REST APIs** and implemented **JWT Authentication** to secure user access to the application.
- Deployed using a **4-tool stack**: Docker, Docker Compose, AWS EC2, and Nginx.

Event Management System | C#, ASP.NET, SQL Server

- Delivered **3 core features**: authentication, event booking workflows, and database-driven **CRUD operations**, using the **ASP.NET** framework.
- Structured a relational **SQL Server** database to support event booking data and CRUD operations.
